

RESOLUTION OF THE

FORT APACHE INDIAN RESERVATION

WHEREAS, Horseshoe Lake has become choked with aquatic vegetation making the lake almost unfishable; and

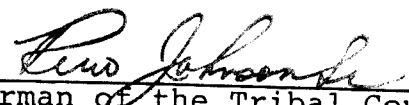

WHEREAS, the Game & Fish Department has tried both chemical and mechanical treatments to alleviate the weed problem without success; and

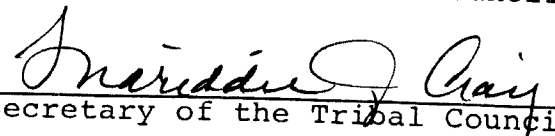

WHEREAS, if the current trend continues, the lake will probably be unfishable within five years; and

WHEREAS, draining the lake, allowing the ground to dry, and then using heavy equipment to scrape and reshape the bottom should relieve the problem for at least ten years;
